LITTLE NEW BROUGHT OUT

Cleveland, September 24.-The in quest into the death of Olive K. Rayl, sides receiving censure by a number deprived of her liberty by Joseph and of Wellsville, was begun by Deputy Coroner Houck vesterday. Four witnesses were examined. Frank J. Wallace, an engineer on the Lake Shore. Those representing the liquor traffic Mardis, aged 33, sought to obtain a testified that he saw the body upon the track on passing Gordan park going west at 5:10 a. m. Tuesday.

"The body was lying face downwar! iammed into the ground." said he. "The hat was lying beside the track one had dropped it there. The body fore 10:12 p. m. Monday evening, as I passed the spot going east at that time and the rails were clear.

"From the position of the body I should say that the woman was either dead or doped when placed on the track. It would be absolutely impossible for a body to lie in the position in which I found Olive Rayl if struck while walking on the track. All indications pointed to the fact that the body had been placed across the rails

C. L. Redington, fireman on the same train, concurred in Wallace's state

The other two witnesses were De tectives Wilmore and Reiser. They admitted that they had been able to find absolutely no trace of the woung woman after the time that she left the Charity hospital at noon Tuesday, Both declared, however, that they were of the opinion that the girl had committed suicide. They searched the trunk and other effects of the dead girl, but were unable to find any letters which would throw any light upon the case. Letters from John Pettit, at one time the young woman's flance, were found, None were dated later than 1900.

LITTLE NEW BROUGHT OUT

Cleveland, September 24.-The inquest into the death of Olive K. Ravl. of Wellsville, was begun by Deputy Coroner Houck yesterday. Four witnesses were examined. Frank J. Wallace, an engineer on the Lake Shore, testified that he saw the body upon the track on passing Gordan park going west at 5:10 a. m. Tuesday.

"The body was lying face downward. jammed into the ground." said he. "The hat was lying beside the track one had dropped it there. The body could not have been on the track before 10:12 p. m. Monday evening, as I passed the spot going east at that time and the rails were clear

"From the position of the body I should say that the woman was either dead or doped when placed on the track. It would be absolutely impossible for a body to lie in the position in which I found Olive Rayl if struck while walking on the track. All indications pointed to the fact that the body had been placed across the rails after death

C. L. Redington, fireman on the same train, concurred in Wallace's statements

The other two witnesses were Detectives Wilmore and Reiser. They admitted that they had been able to find absolutely no trace of the woung woman after the time that she left the Charity hospital at noon Tuesday, Both declared, however, that they were of the opinion that the girl had committed suicide. They searched the trunk and other effects of the dead girl, but were unable to find any letters which would throw any light upon the case. NOVELTIES IN DEMAND.

The approach of the holiday season will make business much better in the flint glass and pottery trades. Many manufacturers are now busily engaged getting out quick selling lines and novelties which will be eagerly snapped up by the discerning buyer. A novel idea, an unique shape, a new combination of colors—anything in fact which is out of the ordinary brings quick and sure returns. Too much attention cannot be paid to this leature of the year's business, for the results obtained will more than repay every manufacturer who gives it his attention.

Bodies Discovered by Newspaper Carrier-Two Bullet Wounds in Each Victim-Man Had Discharged Revolver Clasped in His Hand.

Chicago, Sept. 24.-The dead bodies of Harriet Elizabeth Weber and Inocenti Talamini, a marble cutter, were found on Lexington avenue just south of Fifty-fourth street. Both had been shot twice, and while there are indications that the man shot the woman and then killed himself, there are other features to the case that make it somewhat mysterious. Arthur M. No cause is known why Talamini should have shot the woman, but she had told several o her friends the day before of a Jew who had been following her and of a Hebraic countenance, and it is the cause she refused to marry him.

The woman when found had been through the breast. Talamini was shot twice, once through the neck and once upward through the chin, the bullet coming out at the top of his head. In the man's hand was a revolver with four chambers discharged, accounting for the four shots fired.

Mystery Surrounds Killing of Man and Woman in Residence Portion of Chicago.

MAY BE MURDER AND SUICIDE

Bodies Discovered by Newspaper Carrier-Two Bullet Wounds in Each Victim-Man Had Discharged Revolver Clasped in His Hand.

Chicago, Sept. 24.-The dead bodies of Harriet Elizabeth Weber and Inocenti Talamini, a marble cutter, were found on Lexington avenue just south of Fifty-fourth street. Both had been shot twice, and while there are indications that the man shot the woman and then killed himself, there are other features to the case that make it somewhat mysterious. Arthur M Laurie, with whom the dead woman has made her home, will be held by the police until after the inquest. There is no evidence connecting him with the shooting, but he is detained as a witness. The shots that killed The site for the new high school the man and woman were heard by residents of the neighborhood. No move was made to investigate the shooting, however, and nothing was known of the tragedy until the bodies were discovered by a newspaper car-

Woman in Fear of Follower.

In going through the effects of Miss Weber an envelope was found addressed evidently in the handwriting of a man to Inocenti Talamini. In seeking Talamini to find what he might know of the woman or the shooting Talamini himself. No cause is known why Talamini should have shot the woman, but she had told several o her friends the day before of a Jew who had been following her and of whom she was afraid. Talamini had a Hebraic countenance, and it is the general theory that he shot her be-

cause she refused to marry him. The woman when found had beer shot twice through the left arm and through the breast. Talamini was shot twice, once through the neck and once upward through the chin, the bullet coming out at the top of his head. In the man's hand was a revolver with four chambers discharged, accounting for the four shots fired.

May Have Been a Third Party. The people living in the neighborhood where the tragedy occurred de occasion left a note saying he had clare that more than four shots were fired and one bullet crashed through window of Mrs. S. The proposition put forward by the Business Men's Association of East Palestine for the purpose of settling the telephone controversy has much aged 65 years, who has resided for to commend it. Briefly, the plan favored is to have a conference or convention of committees representing every city and town in the county to decide upon a line of action that will be satisfactory to all patrons and indicate the telephone that shall be adopted for county service. As it is the county service with which telephone patrons are chiefly concerned, adjustment of the dispute can probably be hastened by the means suggested better than in any other way. If the matter is left to the different towns or the individual patrons to decide as they see fit, the result will doubtless be divided opinions and the continuance of the cumbersome, annoying and expensive system now in vogue, necessitating that business men maintain two telephones where one would serve the purpose. Quick action is necessary, as one of the telephone companies is to renew contracts on October 1. Each city and village interested should take the matter up at once and provide for an early meeting at which the terms of both companies can be presented and discussed and the best proposition adopted.

It is a business-like and common sense plan, and should be carried out.

Chairman Dick, of the Republican state executive committee, does not favor the joint debate plan of campaigning proposed by some of the Democrats and there will be no depaign are very plainly defined and the voters are reasonably familiar with them. Certainly they are not likely to gain much knowledge or in formation from talking matches which iawing matches where vituperation takes the place of argument. The issues and arguments can best be presented with calmness and deliberation and decided in the same way.

The proposition put forward by the Business Men's Association of East Palestine for the purpose of settling the telephone controversy has much to commend it. Briefly, the plan favored is to have a conference or convention of committees representing every city and town in the county to decide upon a line of action that will be satisfactory to all patrons and indicate the telephone that shall be adopted for county service. As it is the county service with which tele phone patrons are chiefly concerned, adjustment of the dispute can probably be hastened by the means suggested better than in any other way. If the matter is left to the different towns or the individual patrons to decide as they see fit, the result will doubtless be divided opinions and the continuance of the cumbersome, annoying and expensive system now in vogue, necessitating that business men maintain two telephones where one would serve the purpose. Quick action is necessary, as one of the telephone companies is to renew contracts on October 1. Each city and village interested should take the matter up at once and provide for an early meeting at which the terms of both companies can be presented and discussed and the best proposition adopted.

It is a business-like and common sense plan, and should be carried out.

Chairman Dick, of the Republican state executive committee, does not favor the joint debate plan of campaigning proposed by some of the Democrats and there will be no debates of this kind with his sanction. BECOMING

Is an ordeal which at women approach w indescribable fear, for nothing compares with the pain and horror of child-birth. The thought

of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other dis-

comforts of this period.

"Money seemed but poor and pal-try compared to health, and yet a few dollars invested in Lydia E. Pinkham's Vegetable Compound brought me good health. I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was frightful, and I would lie awake for seemed more weary in the morning than when I retired. After reading one of its advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides build-ing up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. CROPS ARE ABUNDANT

Owing to Continued Rains the Corn Output Will Be Both Late and Light.

vield of Hay Was Heavy and Pastures Still in Good Condition-Wheat Threshing Delayed by Rainy Weather-Farm Products Plenty.

Washington, Sept. 24.—Secretary Wilson, of the agricultural department, returned to Washington from Ogden, Utah, where he delivered a peech before the irrigation congress. His journey both ways took him through the heart of the corn belt He said:

The corn crop, owning to the pelight. Heavy floods destroyed it on bottom lands to a great extent Continued rains throughout June and mly saturated the level lands and rearded the growth of corn. The frost has injured it in streaks. Through Central Iowa perhaps one-quarter of he crop has been touched by the freeze, but what has not been affected by frost is ripening rapidly with this fine weather. Iowa, for instance, will not have as many bushels as last year, but will produce more No. 2 corn than last year.

"There will be plenty of corn in the country, because feeding was very extensive last year, as the corn was of such a character that it had to be fed. Feeding last year was unprofitable. Very many feeders lost money, therefore they will feed less this year.

"A very heavy hay crop was secured this season and pastures have been and still are in excellent condition.

'As to wheat, thrashing has been delayed by rainy weather. If the present good weather continues it will progress rapidly. In considering the wheat crop, we must take account of all the wheat-growing countries. We are getting into telegraph relation- propriate exercises, features of the ship with most of the European countries so as to be able to estimate the world's crop more closely than has heretofore been done. Taking our farm products as a whole there is an abundance in the land."

A story is in circulation that the Consolidated Lake Superior company is not in as serious a financial condi-SECRETARY WILSON ON OUTLOOK is not in as serious a mancial condition as has been given out. The people doubt seriously the necessity for closing down the plants and even argue that this was done simply for the purpose of whipping into line so-called 'dissenters" among stockholders. They argue that it is absurd to say the company is unable to buy provisions for its horses and men, even if the assets of the concern are tied up.

Perhaps one of the most pronounced converts to this belief is Mayor W. H Plumber, who said that he considered the stories given out by officials of the company of its state of destitution were all done in the interest of the game which financiers are playing in Philadelphia and New York. There 'a also talk of calling a grand jury to uliarity of the season, was late and investigate the reports that have been given out, which are styled a deliberate attempt to freeze out the small Canadian stockholders.

CROPS ARE ABUNDAN'I

Owing to Continued Rains the Corn Output Will Be Both Late and Light.

SECRETARY WILSON ON OUTLOOK

Yield of Hay Was Heavy and Pastures Still in Good Condition-Wheat Threshing Delayed by Rainy Weather-Farm Products Plenty.

Washington, Sept. 24.-Secretary Wilson, of the agricultural department, returned to Washington from Ogden, Utah, where he delivered a peech before the irrigation congress. His journey both ways took him through the heart of the corn belt He said:

The corn crop, owning to the pehe bottom lands to a great extent Continued rains throughout June and July saturated the level lands and retarded the growth of corn. The frost has injured it in streaks. Through Central Iowa perhaps one-quarter of the crop has been touched by the freeze, but what has not been affected by frost is ripening rapidly with this fine weather. Iowa, for instance, will not have as many bushels as last year. but will produce more No. 2 corn than last year.

"There will be plenty of corn in the country, because feeding was very extensive last year, as the corn was of such a character that it had to be fed. Feeding last year was unprofitable. Very many feeders lost money, therefore they will feed less this year.

"A very heavy hay crop was secured this season and pastures have been and still are in excellent condition.

"As to wheat, thrashing has been delayed by rainy weather. If the present good weather continues it will progress rapidly. In considering the wheat crop, we must take account of all the wheat-growing countries. We are getting into telegraph relation. Propriate exercises, features of the ship with most of the European countries so as to be able to estimate the world's crop more closely than has heretofore been done. Taking our farm products as a whole there is an abundance in the land."

Murderer Suicides to Escape Posse. North Vernon, Ind., Sept. 24 .- William Wilkerson, while intoxicated, building for the school of journalism drove his family from home. Owing to an order from the Chinese Six companies, business was thousands of Chinese assembled around the consulate. Tom Kim Yung was a high official in court circles at a misdemeanor charge he committed suicide.

Marshal Implicated in Robbery.

Indianola, Ia., Sept. 24.-A sensation developed at the trial of former Deputy United States Marshal W. A. Richards. Richards is accused of the robbery of Mr. and Mrs. F. Sullivan at Hamilton on New Year's eve, for complicity in which Frank Baird is now serving a 17-years' sentence. Two thousand dollars was secured. Baird, who was brought from the peniten. tlary, testified that Richards planned the robbery in the presence of witnesses, summoned him by telegraph on the day of the robbery and assisted him and Charles Redrup, a cook, to commit the robbery.

Village Wiped Out by Incendiary Fire. STORIES EXAGGERATED.

Poverty of Lake Superior Company Doubted-Game of Freeze-Out. Sault Ste. Marie, Mich., Sept. 24 .-The steamer Minnie M, which was expected with 1,500 miners, employes of the Conslidated Lake Superior company, did not reach here, owing to the severe storm on Lake Superior.

A story is in circulation that the Consolidated Lake Superior company is not in as serious a financial condition as has been given out. The people doubt seriously the necessity for closing down the plants and even argue that this was done simply for the purpose of whipping into line so-called 'dissenters" among stockholders. They argue that it is absurd to say the company is unable to buy provisions for its horses and men, even if the assets of the concern are tied up.

Perhaps one of the most pronounced converts to this belief is Mayor W. H. Plumber, who said that he considered the stories given out by officials of the company of its state of destitution were all done in the interest of the game which financiers are playing in Philadelphia and New York. There 's also talk of calling a grand jury to culiarity of the season, was late and investigate the reports that have been light. Heavy floods destroyed it on given out, which are styled a deliberate attempt to freeze out the small Canadian stockholders.

Two men killed, two fatally injured, a half dozen railway employes. None was smashed into small pieces and the engine of the Alliance train wa wrecked beyond repair.

> Immediately after the collision the scene was one of abject horror. The cries of the injured ones will never to forgotten by those near. A number and work was instituted as quickly as possible to extricate several of the men who had been pinioned under the debris. It was soon discovered that Buchanan and McWilliams would die before the wreckage could be lifted Buchanan was lying on his face with the tender of the engine flat on his back, while McWilliams was badly crushed. The two unfortunates moan ed in terrible agony. Both of the men, it is said, were conscious for some time and begged piteously for the rescuers to hurry. LITTLE NEW BROUGHT OUT

Cleveland, September 24.-The inquest into the death of Olive K. Rayl, of Wellsville, was begun by Deputy Coroner Houck yesterday. Four witnesses were examined. Frank J. Wallace, an engineer on the Lake Shore, testified that he saw the body upon the track on passing Gordan park go ing west at 5:10 a. m. Tuesday.

"The body was lying face downward, iammed into the ground" said he "The hat was lying beside the track one had dropped it there. The body could not have been on the track before 10:12 p. m. Monday evening, as I passed the spot going east at that time and the rails were clear.

"From the position of the body I should say that the woman was either dead or doped when placed on the track. It would be absolutely impossible for a body to lie in the position in which I found Olive Rayl if struck while walking on the track. All indi cations pointed to the fact that the body had been placed across the rails after death.

C. L. Redington, fireman on the same train, concurred in Wallace's state-

The other two witnesses were De tectives Wilmore and Reiser. They admitted that they had been able to find absolutely no trace of the woung woman after the time that she left the Charity hospital at noon Tuesday. Both declared, however, that they were of the opinion that the girl had committed suicide. They searched the trunk and other effects of the dead girl, but were unable to find any letters which would throw any light upon the case, Letters from John Pettit, at one time the young woman's flance, were found. SOME WISE PRECAUTIONS

Suggested in an Article By Dr. or give to their children to drink, milk Probst, Secretary of the Ohio from a diseased cow, be the disease Society for the Prevention of Tuberculosis.

Columbus, September 24.—(Special.) -The third article by Dr. C. O. Probst, secretary of the Ohio Society for Prevention of Tuberculosis, is as follows:

Many of the domestic animals suffer from tuberculosis. So do the wild animals, but only when kept in captivity. Bovine tuberculosis is the most important to man. The percentage of milch cows affected in Ohio is not known. It has been estimated that fully 5 per cent have tuberculosis. A much higher per cent has been found in many of the herds examined.

When a cow has tuberculosis the germ that causes the disease may appear in the milk. It will almost certainly do so if the udder is affected, as it frequently is. The germ is also found in many other organs, and in the flesh used for food.

Until recently it was scarcely ques tioned by anyone that tuberculosis of animals and tuberculosis of man is not one and the same disease, and that it might be communicated from animal to man, and from man to animal.

Many laws have been passed, and have been and are still being enforced in coughing or loud speaking, or by ago Koch, who discovered the germ that causes tuberculosis, announced that the disease is not the same in man and animals; that the germ that causes tuberculosis in man cannot be made to produce tuberculosis in ani-

perience to support this view. On the contrary the foremost men of the world who have studied this subject are opposed to it.

The question is being reinvestigated, and we should certainly be very unwise, at least for the present, to omit any precaution to prevent contracting tuberculosis from animals.

NOVELTIES IN DEMAND.

The approach of the holiday season will make business much better in the flint glass and pottery trades. Many manufacturers are now busily engaged getting out quick selling lines and novelties which will be eagerly snapped up by the discerning buyer. A novel idea, an unique shape, a new combination of colors-anything in fact which is out of the ordinary brings quick and sure returns. Too much attention cannot be paid to this leature of the year's business, for the results obtained will more than repay every manufacturer who gives it his attention.

The proposition put forward by the Business Men's Association of East Palestine for the purpose of settling the telephone controversy has much aged 65 years, who has resided for to commend it. Briefly, the plan favored is to have a conference or convention of committees representing every city and town in the county to decide upon a line of action that will be satisfactory to all patrons and indicate the telephone that shall be adopted for county service. As it is the county service with which telephone patrons are chiefly concerned adjustment of the dispute can probably be hastened by the means suggested better than in any other way. If the matter is left to the different towns or the individual patrons to decide as they see fit, the result will doubtless be divided opinions and the continuance of the cumbersome, annoying and expensive system now in vogue, necessitating that business men maintain two telephones where one would serve the purpose. Quick action is necessary, as one of the telephone companies is to renew contracts on October 1. Each city and village interested should take the matter up at once and provide for an early meeting at which the terms of both companies can be presented and discussed and the best proposition adopted.

It is a business-like and common sense plan, and should be carried out.

Chairman Dick, of the Republican state executive committee, does not favor the joint debate plan of campaigning proposed by some of the Democrats and there will be no debates of this kind with his sanction Quite right. The issues of the campaign are very plainly defined and the voters are reasonably familiar with them. Certainly they are not likely to gain much knowledge or in formation from talking matches which are quite likely to degenerate into jawing matches where vituperation takes the place of argument. The issues and arguments can best be presented with calmness and delibera tion and decided in the same way.

ast Tribute of Respect Lovingly Paid to the Dead Girl's Memory.

Impressive funeral services were neld at Wellsville at 1 o'clock yesterlay afternoon over the remains of Miss Dive Rayl, the victim of the terrible ragedy at Cleveland Tuesday mornng. One half hour previous to the ime for the services to commence he Rayl home was crowded to the oors and the front porch and sidealk was also lined with people.

A quartet, which was composed of irs. D. S. Brookman, Miss Everson, V. R. MacDonald and J. W. McQueeu, ang several hymns and opened with he hymn, "Fade, Fade Each Earthly oy: Jesus Is Mine."

Rev. L. F. Laverty, the pastor of the first Presbyterian church, who offiated, read several verses of scripure, after which he offered prayer, Ie then delivered a short sermon earing on the good character and 661 hristian life of the deceased. From ne eighth verse of Mark 14 he took e following text: "She hath done hat she could."

Rev. Mr. Laverty described Miss ayl as being one of the most earnest hristian workers in the church and leader in the Christian Endeavor Soiety work. During the course of his omewhat brief sermon he said that e did not personally believe in the nicide theory as advanced by some f the papers, but said that if such ere the case, the deed had been done uring a moment of temporary mental terangement and not while her true Homestead elf. He said that only a few days bo ore she had left the city he had given er a letter of recommendation to the akeside hospital. He said that she Tuesday and Wednesday ad been annointed before burial. A rayer followed the conclusion of his emarks and then the quartet renlered another selection, "It Is Well Thur., Friday & Saturday Vith My Soul.'

This concluded the services at the louse and the people were given a hance to view the remains and formd in line on the front porch. The eautiful white casket was then placed n the hearse and the funeral cortege hen proceeded to Spring Hill cemeery, where the last ceremony wa performed by Rev. Mr. Laverty and he body lowered in the grave.

It was another day for the swatters and except for one inning Morg Winters had all the best of the going. Several of the hits charged up against him were infield grounders too slow to field Morg was handicapped by some tantalizing miscues and as usual hits followed after the side should have been retired. The game was won and lost too many times to blame any one player, although Webb seems to be entitled to most of the credit. With two down he had a chance to retire the side in the eighth but made a poor throw that cost a run. Wallace's muff of an easy fly was also costly and Houser's miscue in the second, gave the visitors a boost. Pearson, however, had as great a handicap in the way of blunders.

BECOMING A MOTHER indescribable fear, for nothing compares with the pain and horror of child birth. The child birth The child birth.

Is an ordeal which at women approach w indescribable fear, for child-birth. The thought

of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women nafely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other dis-

Washington, Sept. 24.-Secretary Wilson, of the agricultural department, returned to Washington from Ogden, Utah, where he delivered a speech before the irrigation congress. His journey both ways took him through the heart of the corn belt

The corn crop, owning to the pelight. Heavy floods destroyed it on the bottom lands to a great extent Continued rains throughout June and July saturated the level lands and retarded the growth of corn. The frost has injured it in streaks. Through Central Iowa perhaps one-quarter of the crop has been touched by the freeze, but what has not been affected by frost is ripening rapidly with this fine weather. Iowa, for instance, will not have as many bushels as last year, but will produce more No. 2 corn than

"There will be plenty of corn in the country, because feeding was very extensive last year, as the corn was of such a character that it had to be fed. Feeding last year was unprofitable. Very many feeders lost money, therefore they will feed less this year.

"A very heavy hay crop was secured this season and pastures have been and still are in excellent condition.

"As to wheat, thrashing has been delayed by rainy weather. If the present good weather continues it will progress rapidly. In considering the wheat crop, we must take account of all the wheat-growing countries. We are getting into telegraph relationship with most of the European countries so as to be able to estimate the world's crop more closely than has heretofore been done. Taking our farm products as a whole there is an abundance in the land."

STORIES EXAGGERATED.

Poverty of Lake Superior Company Doubted-Game of Freeze-Out. Sault Ste. Marie, Mich., Sept. 24 .-The steamer Minnie M, which was ex-

pected with 1,500 miners, employes of the Conslidated Lake Superior company, did not reach here, owing to the severe storm on Lake Superior. A story is in circulation that the

Consolidated Lake Superior company is not in as serious a financial condition as has been given out. The people doubt seriously the necessity for closing down the plants and even argue that this was done simply fer the purpose of whipping into line so-called 'dissenters" among stockholders. They argue that it is absurd to say the company is unable to buy provisions for its horses and men, even if the assets of the concern are tied up.

Perhaps one of the most pronounced converts to this belief is Mayor W. H. Plumber, who said that he considered the stories given out by officials of the company of its state of destitution were all done in the interest of the game which financiers are playing in Philadelphia and New York. There 19 also talk of calling a grand jury to culiarity of the season, was late and investigate the reports that have been given out, which are styled a delib erate attempt to freeze out the small Canadian stockholders.

> Northrop a Cousin of the Goulds. St. Louis, Sept. 24.-Reed Northrop whose attempt at suicide at Buffalo was unsuccessful, is a brother of Sandford Northrop, who killed himself here last June in a fit of despon dency as a result of sickness. Northrops are cousins of the Goulds Reed Northrop came to St. Louis several years ago as the president of the American Refrigerator Transit company. He retained this position until last spring, when the company was absorbed by the Missouri Pacific rail-The absorption abolished the road. general offices of the company and the connection of Reed Northrop and his brother Sandford, who was secretary with the company was severed. Since then Reed Northrop has not been identified exclusively with any other business interest.

Columbia University Opened. New York, Sept. 24.—The one hun dred and fiftieth academic year of Co- Nobby Suits lumbia university was opened with appropriate exercises, features of the program being the dedication of the Goelet memorial statue "Alma Mater" and the announcement by President Nicholas Murray Butler of the endow ment of the Pulitzer school of journalism and the gift of \$100,000, or \$200,000 if needed, for the erection of a university chapel. Mr. Butler said steps will be taken to erect a building for the school of journalism and it is hoped to complete it in v year. The statue of "Alma Mater" was presented to the university by Mrs. Robert Goelet and her son Robmarshal paid no attention and was ert Goelet in memory of the elder Rob ert Goelet of the class of 1860.

Big Sum for Canal Improvement. New York, Sept. 24.—At a meeting of the New York board of trade and transportation a resolution was unanimously adopted endorsing the proposed measure making provision for the issue of \$101,000,000 bonds for the improvement of the Erie, Oswego and Champlain canals, which is to be submitted to the people of the state at the November election. Most of the mills have notices posted to the Wilson's Livery who quit work will be ready for them this morning and that all men who do not report for duty can consider them selves discharged. The strike involves about 1,700 men.

Object to Machine-Cut Stone.

Cleveland, Sept. 24.-At a meeting cil a delegation from the stonecutters union asked for the co-operation of all the building crafts in a fight against the introduction of machine-cut stone into this city. It is said to be the in tention of contractors building a \$100, 000 church edifice to use machine-cu stone and the stonecutters fear that its introduction will be disastrious to their trade. The proposition was taken under advisement.

Prominent Lawyer Suicides.

Red Bank, N. J., Sept. 24.—Robert Allen, Jr., who was about 70 years old, was found dead in a wagon house in the rear of his residence with bullet wound in his head and a revolver by his side. All the circumstances point to suicide. It is rumored that business troubles were the cause of his taking his life. Mr. Allen was formerly prosecutor of Monmouth county and has also served as member of assembly.

The cause of the terrible catas trophe is credited to the failure of the trainmen to heed orders. A coal train headed for Alliance, hauling 10 heavily laden cars, it is said, had the right of the line and was going at the rate of 35 miles an hour when it collided with a C. & P. caboose, which alone was being pushed backward at a whirlwind pace. It is said that the crew on the engine running the caboose had been given orders to reo'clock.

The directors of the Liverpool townships schools are certainly having their share of troubles. Firestone and Walter Armstrong, Lisbon; H. H. Blythe Thomas Fisher and Harry Hall, East Liverpool, and Richard Pow, Salem Mr. Firestone on Thursday morning made a report on the meeting of the state bank superintendents' convention which he attended as a delegate of the Ohio association. He was also made a member of the committee or nomination. Governor Nash welcomed the delegates, the response being by Hon. J. J. Sullivan, of Cleveland Some very instructive addresses were made by able speakers. The movement to raise a fund for the purchase of a silver service for the battleship Ohio was given new life. The sum desired is \$30,000 and thus far but \$2,500 has been subscribed, Cleveland citizens being the donors. The dele gates were urged to display the neces sary activity and if this is done the re

quired amount will be forthcoming soon. President Knisely, of Toledo, in his annual address, said that the only remedy for industrial and financial troubles is for capital and labor to get together. Hostile means will not accomplish this. An agreement in which both sides have a choice is the only method. The aim of labor is noble, he said, but he decried the abuses committed in the name of labor, which can have but baneful effect in the end. He said the bankers are opposed to strikes.

LITTLE NEW BROUGHT OUT

Cleveland, September 24.-The in quest into the death of Olive K. Rayl. of Wellsville, was begun by Deputy Coroner Houck yesterday. Four witnesses were examined. Frank J. Wallace, an engineer on the Lake Shore. testified that he saw the body upon the track on passing Gordan park going west at 5:10 a. m. Tuesday.

"The body was lying face downward, jammed into the ground," said he. "The hat was lying beside the track a short distance away as though some one had dropped it there. The body could not have been on the track before 10:12 p. m. Monday evening, as I passed the spot going east at that time and the rails were clear.

"From the position of the body I should say that the woman was either dead or doped when placed on the track. It would be absolutely impossible for a body to lie in the position in which I found Olive Rayl if struck while walking on the track. All indications pointed to the fact that the body had been placed across the rails after death."

C. L. Redington, fireman on the same train, concurred in Wallace's state-

The other two witnesses were Detectives Wilmore and Reiser. They admitted that they had been able to find absolutely no trace of the woung woman after the time that she left the Charity hospital at noon Tuesday. Both declared, however, that they were of the opinion that the girl had committed suicide. They searched the trunk and other effects of the dead girl, but were unable to find any letters which would throw any light upon the case. Letters from John Pettit, at one time the young woman's flance, were found. None were dated later than 1900.

-The third article by Dr. C. O. Probst, secretary of the Ohio Society for Prevention of Tuberculosis, is as follows:

Many of the domestic animals suffer from tuberculosis. So do the wild animals, but only when kept in captivity. Bovine tuberculosis is the most important to man. The percentage of milch cows affected in Ohio is not known. It has been estimated that fully 5 per cent have tuberculosis. A much higher per cent has been found in many of the herds examined.

When a cow has tuberculosis the germ that causes the disease may appear in the milk. It will almost certainly do so if the udder is affected, as it frequently is. The germ is also the flesh used for food.

Until recently it was scarcely ques tioned by anyone that tuberculosis of animals and tuberculoris of man is not communicated by ordinary contact precaution to prevent the communicaone and the same disease, and that it with a consumptive, as in smallpox or tion of his disease to others. might be communicated from animal scarlet fever. to man, and from man to animal.

PORCELAIN PIPES. The Meissen china factory, in Saxony, Germany, is making water pipes for waterworks which, on account of the various advantages they have over iron and stone pipes, seem to be a promising article, although they are nore expensive than the latter.

These pipes, according to a recent eport made by Constable General J. O. Hughes, of Coburg, are very thin and glazed, and are embedded in iron pipes, the space between the two substances being filled up with cement China being the best resisting pipe material that we know of, every guaranty is given for an unlimited life of the pipes; moreover, the absorbing of iron in the water, which is very frequent when iron pipes alone are used, is made altogether impossible. Furthermore, the iron pipes by having par ticles of iron absorbed by the water will corrode in the course of time forming hydrated oxides of iron (Eisenoxyhydrate), which will stop up the tubes and finish by eating holes in the pipes. So far this drawback to iron water pipes has not been very fre quently noticed, but it is very likely that we will hear more frequent complaints about them when time draws on and the pipes now in use become

NOVELTIES IN DEMAND.

The approach of the holiday season will make business much better in the flint glass and pottery trades. Many manufacturers are now busily engaged getting out quick selling lines and novelties which will be eagerly snapped up by the discerning buyer. A novel idea, an unique shape, a new combination of colors-anything in fact which is out of the ordinary brings quick and sure returns. Too much attention cannot be paid to this leature of the year's business, for the results obtained will more than repay every manufacturer who gives it his attention.

RECEPTION PLANNED FOR **REV. AND MRS. CHAMBERS**

Missionary and Wife to Be Entertained By Second U. P. Church

Mr. and Mrs. Chambers, who are to leave next month for India, where he has a station as a missionary.

Invitations have been extended to the friends of Rev. Mr. and Mrs. Chambers and the function promises to be one of the pleasantest of the year. Refreshments will be served during the evening in the auditorium of the church. One interesting feature of the evening will be the presentation of the fancy quilt made for the minister and his wife by the missionary ladies of the church.

Among the guests of honor will be Rev. Dr. J. C. Taggart and wife, Rev. J. Ross Greene, Rev. J. C. Hanley, Rev. W. M. Glasgow and Rev. W. B. Gillis. Rev. Dr. Taggart was formerly the pastor of the young missionary, Rev. Mr. Greene is a former pastor of the Second U. P. church and Rev. Mr. Hanley is a schoolmate and lifelong friend.

TRAGEDY AN ENIGMA

Mystery Surrounds Killing of Man and Woman in Residence Portion of Chicago.

MAY BE MURDER AND SUICIDE

Bodies Discovered by Newspaper Can rier-Two Bullet Wounds in Each Victim-Man Had Discharged Revolver Clasped in His Hand.

Chicago, Sept. 24.-The dead bodies of Harriet Elizabeth Weber and Inocenti Talamini, a marble cutter, were found on Lexington avenue just south of Fifty-fourth street. Both had been shot twice, and while there are indications that the man shot the woman and then killed himself, there are other features to the case that make it somewhat mysterious. Arthur M. Laurie, with whom the dead woman COUNTY AND NEIGHBORHOOD has made her home, will be held by the police until after the inquest. There is no evidence connecting him with the shooting, but he is detained as a witness. The shots that killed the man and woman were heard by residents of the neighborhood. No move was made to investigate the shooting, however, and nothing was known of the tragedy until the bodies were discovered by a newspaper car-

Talamini had a Hebraic countenance, and it is the general theory that he shot her be-

cause she refused to marry him. The woman when found had been shot twice through the left arm and through the breast. Talamini was shot twice, once through the neck and once upward through the chin, the bullet coming out at the top of his head. In the man's hand was a revolver with four chambers discharged, accounting for the four shots fired.

May Have Been a Third Party. The people living in the neighborhood where the tragedy occurred declare that more than four shots were fired and one bullet crashed through window of Mrs. S. The proposition put forward by the Business Men's Association of East Palestine for the purpose of settling the telephone controversy has much aged 65 years, who has resided for to commend it. Briefly, the plan favored is to have a conference or convention of committees representing every city and town in the county to decide upon a line of action that will be satisfactory to all patrons and indicate the telephone that shall be adopted for county service. As it is the county service with which telephone patrons are chiefly concerned adjustment of the dispute can probably be hastened by the means suggested better than in any other way. If the matter is left to the different towns or the individual patrons to decide as they see fit, the result will doubtless be divided opinions and the continuance of the cumbersome, annoying and expensive system now in vogue, necessitating that business men maintain two telephones where one would serve the purpose. Quick action is necessary, as one of the telephone companies is to renew contracts on October 1. Each city and village interested should take the matter up at once and provide for an early meeting at which the terms of both companies can be presented and discuss-

ed and the best proposition adopted.

It is a business-like and common sense plan, and should be carried out.

Chairman Dick, of the Republican state executive committee, does not favor the joint debate plan of campaigning proposed by some of the Democrats and there will be no debates of this kind with his sanction. Quite right. The issues of the campaign are very plainly defined and the voters are reasonably familiar with them. Certainly they are not ikely to gain much knowledge or information from talking matches which are quite likely to degenerate into jawing matches where vituperation takes the place of argument. The issues and arguments can best be presented with calmness and deliberation and decided in the same way.

Always Reliable

We are not trying to establish a reputation for "lowest cut lates." We are not trying to make the biggest show. We do not claim the earth. Our ambition now is just what it was years ago-to deserve the reputation of always being reliable. We won that reputation honestly and it cannot be taken away from us. BECOMING

Is an ordeal which at women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought

of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

CROPS ARE ABUNDANT

Owing to Continued Rains the Corn Output Will Be Both Late and Light.

SECRETARY WILSON ON OUTLOOK

Yield of Hay Was Heavy and Pastures Still in Good Condition-Wheat Threshing Delayed by Rainy Weather-Farm Products Plenty.

Washington, Sept. 24.-Secretary Wilson, of the agricultural department, returned to Washington from Ogden, Utah, where he delivered a speech before the irrigation congress. His journey both ways took him through the heart of the corn belt

The corn crop, owning to the pe-Heavy floods destroyed it on the bottom lands to a great extent Continued rains throughout June and July saturated the level lands and retarded the growth of corn. The frost has injured it in streaks. Through Central Iowa perhaps one-quarter of the crop has been touched by the freeze, but what has not been affected by frost is ripening rapidly with this fine weather. Iowa, for instance, will not have as many bushels as last year, but will produce more No. 2 corn than last year.

There will be plenty of corn in the country, because feeding was very extensive last year, as the corn was of such a character that it had to be fed. Feeding last year was unprofitable. Very many feeders lost money, therefore they will feed less this year.

"A very heavy hay crop was secured this season and pastures have beea and still are in excellent condition.

'As to wheat, thrashing has been delayed by rainy weather. If the present good weather continues it will progress rapidly. In considering the wheat crop, we must take account of all the wheat-growing countries. We are getting into telegraph relationship with most of the European countries so as to be able to estimate the world's crop more closely than has heretofore been done. Taking our farm products as a whole there is an abundance in the land."

Murderer Suicides to Escape Posse. North Vernon, Ind., Sept. 24.-Wildrove his family from home. Marshal entering the premises was warned by marshal paid no attention and was ert Goelet in memory of the elder Robshot and instantly killed by Wilker- ert Goelet of the class of 1860. son. Wilkerson immediately started for the country and a posse was organized to pursue him. Later a riot alarm was turned in and many citizens joined in the chase. A half mile from town Wilkerson was surrounded but killed himself with the same gun with which he had shot Marshal Schwake Wilkerson was formerly a guard at the Indiana reformatory in Jeffersonville.

Chinaman Had Gorgeous Funeral.

San Francisco, Sept. 24.—One of the most gorgeous and impressive oriental prosperity of our city and state and spectacles ever witnessed in America made notable the funeral services over the body of Tom Kim Yung, military attache of the Chinese legation in the United States, whose death a week ago by asphyxiation caused deep mourning among the Chinese in this country. Owing to an order from the Chinese Six companies, business was suspended throughout Chinatown, and thousands of Chinese assembled around the consulate. Tom Kim Yung was a high official in court circles at Pekin. Following his recent arrest on a misdemeanor charge he committed

Marshal Implicated in Robbery. Indianola, Ia., Sept. 24.-A sensation developed at the trial of former Deputy United States Marshal W. A. Richards. Richards is accused of the robbery of Mr. and Mrs. F. Sullivan at Hamilton on New Year's eve, for complicity in which Frank Baird is now serving a 17-years' sentence. Two thousand dollars was secured. Baird, who was brought from the penitentlary, testified that Richards planned the robbery in the presence of witnesses, summoned him by telegraph on the day of the robbery and assisted him and Charles Redrup, a cook, to commit the robbery.

Village Wiped Out by Incendiary Fire. Mellen, Wis., Sept. 24.—Incendiaries started a fire which nearly wiped out the village of Morse in Ashland county and caused a loss of \$300,000, partially covered by insurance. The saw mill and store of T. R. Chase were destroyed, together with 6,000,000 feet of lumber. The fire also burned several small buildings in the vicinity. One man was injured.

Five Years for Forgery.

San Francisco, Cal., Sept. 24.— Judge De Haven, of the United States district court, sentenced W. H. Dillard, a former internal revenue employe, to five years in the penitentiars for the forging of Chinese certificates. and the other delegates from local A motion for a new trial was refused

Disastrious Russian Fire. St. Petersburg, Sept. 24.-A fire has troken out at the Biliebet naphtha fountairs belonging to the firm of olich at Eaku, and has already caused damage estimated at \$2,500,000. The works have been completely destroyed nd the fire is still spreading.

STORIES EXAGGERATED.

Poverty of Lake Superior Company Doubted-Game of Freeze-Out. Sault Ste. Marie, Mich., Sept. 24 .-The steamer Minnie M, which was expected with 1,500 miners, employes of the Conslidated Lake Superior company, did not reach here, owing to the severe storm on Lake Superior.

A story is in circulation that the Consolidated Lake Superior company is not in as serious a financial condition as has been given out. The people doubt seriously the necessity for closing down the plants and even argue that this was done simply fer the purpose of whipping into line so-called 'dissenters" among stockholders. They argue that it is absurd to say the company is unable to buy provisions for its horses and men, even if the assets of the concern are tied up.

Perhaps one of the most pronounce. converts to this belief is Mayor W. H Plumber, who said that he considered the stories given out by officials of the company of its state of destitution were all done in the interest of the game which financiers are playing in Philadelphia and New York. There 's also talk of calling a grand jury to culiarity of the season, was late and investigate the reports that have been given out, which are styled a deliberate attempt to freeze out the small Canadian stockholders.

> Northrop a Cousin of the Goulds. St. Louis, Sept. 24.-Reed Northrop. whose attempt at suicide at Buffalo was unsuccessful, is a brother of Sandford Northrop, who killed himself here last June in a fit of despondency as a result of sickness. The Northrops are cousins of the Goulds. Reed Northrop came to St. Louis sev-American Refrigerator Transit company. He retained this position until last spring, when the company was absorbed by the Missouri Pacific railroad. The absorption abolished the general offices of the company and the connection of Reed Northrop and his

brother Sandford, who was secretary with the company was severed. Since then Reed Northrop has not been identified exclusively with any other business interest. Columbia University Opened. New York, Sept. 24.-The one hundred and fiftieth academic year of Co Nobby Suits lumbia university was opened with appropriate exercises, features of the program being the dedication of the Goelet memorial statue "Alma Mater" and the announcement by President Nicholas Murray Butler of the endow ment of the Pulitzer school of journalism and the gift of \$100,000, or

\$200,000 if needed, for the erection of a university chapel. Mr. Butler Relieve Your Mind said steps will be taken to erect a liam Wilkerson, while intoxicated, building for the school of journalism and it is hoped to complete it in v Schwake was appealed to and upon year. > Big Sum for Canal Improvement. New York, Sept. 24.—At a meeting of the New York board of trade and transportation a resolution was unanimously adopted endorsing the proposed measure making provision for the issue of \$101,000,000 bonds for the improvement of the Erie, Oswego and Champlain canals, which is to be submitted to the people of the state at the November election. The measure was endorsed as "essential to the to their continued supremacy in commerce, manufactures, population and wealth."

Minneapolis Flour Mills Closed. Minneapolis, Sept. 24.—All the Minneapolis flouring mills were closed in definitely at midnight. At that hour all the men quit work excepting a few who remained a few minutes to allow the rolls to run clean. There was no violence or disorder of any sort. Most of the mills have notices posted to the Wilson's Livery effect that the time of all the men who quit work will be ready for them this morning and that all men who do not report for duty can consider themselves discharged. The strike involves about 1,700 men.

Object to Machine-Cut Stone. Cleveland, Sept. 24.—At a meeting of the United Trades and Labor coun HOME DRESSED MEATS cil a delegation from the stonecutters union asked for the co-operation of all the building crafts in a fight against the introduction of machine-cut stone Poultry at into this city. It is said to be the intention of contractors building a \$100. 000 church edifice to use machine-cut stone and the stonecutters fear that its introduction will be disastrious to their trade. The proposition was taken under advisement.

Prominent Lawyer Suicides. Red Bank, N. J., Sept. 24.-Robert Allen, Jr., who was about 70 years old, was found dead in a wagon house in the rear of his residence with bullet wound in his head and a revolver by his side. All the circumstances point to suicide. It is rumored that business troubles were the cause of his taking his life. Mr. Allen was formerly prosecutor of Monmouth county and has also served as member of assembly.
